

Git & Github with SSH 연결

(옵션) 만약 github이 있다면, 삭제

(옵션) 만약 .ssh 폴더가 없다면, 실행

```
PS> cd ~  
PS> mkdir .ssh
```

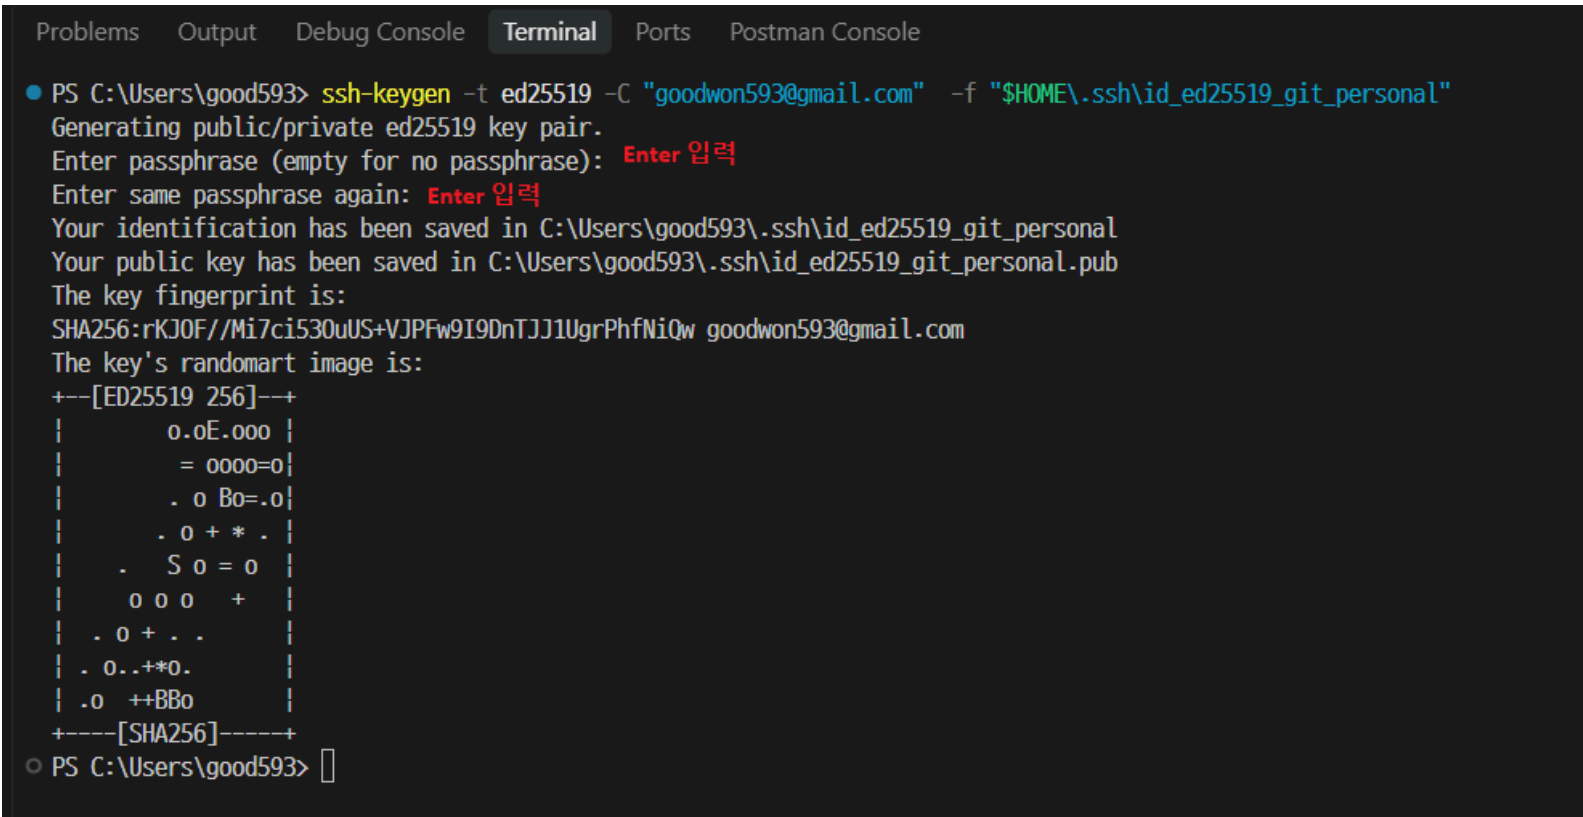

The screenshot shows a Visual Studio Code interface with the 'Terminal' tab selected. The terminal output shows two commands being executed: 'cd ~' and 'mkdir .ssh'. Below the commands, the directory path 'C:\Users\good593' is displayed. A table lists the files and directories in the current directory, showing a new directory named '.ssh' created on 2026-08-23 at 2:46 PM.

```
Problems Output Debug Console Terminal Ports Postman Console  
● PS D:\develop\github\course_github> cd ~  
● PS C:\Users\good593> mkdir .ssh  
  
디렉터리: C:\Users\good593  
  
Mode                LastWriteTime         Length Name  
----                -  
d-----          2026-08-23 오후 2:46             .ssh  
  
○ PS C:\Users\good593> 
```

단계1: Windows에서 SSH Key 생성

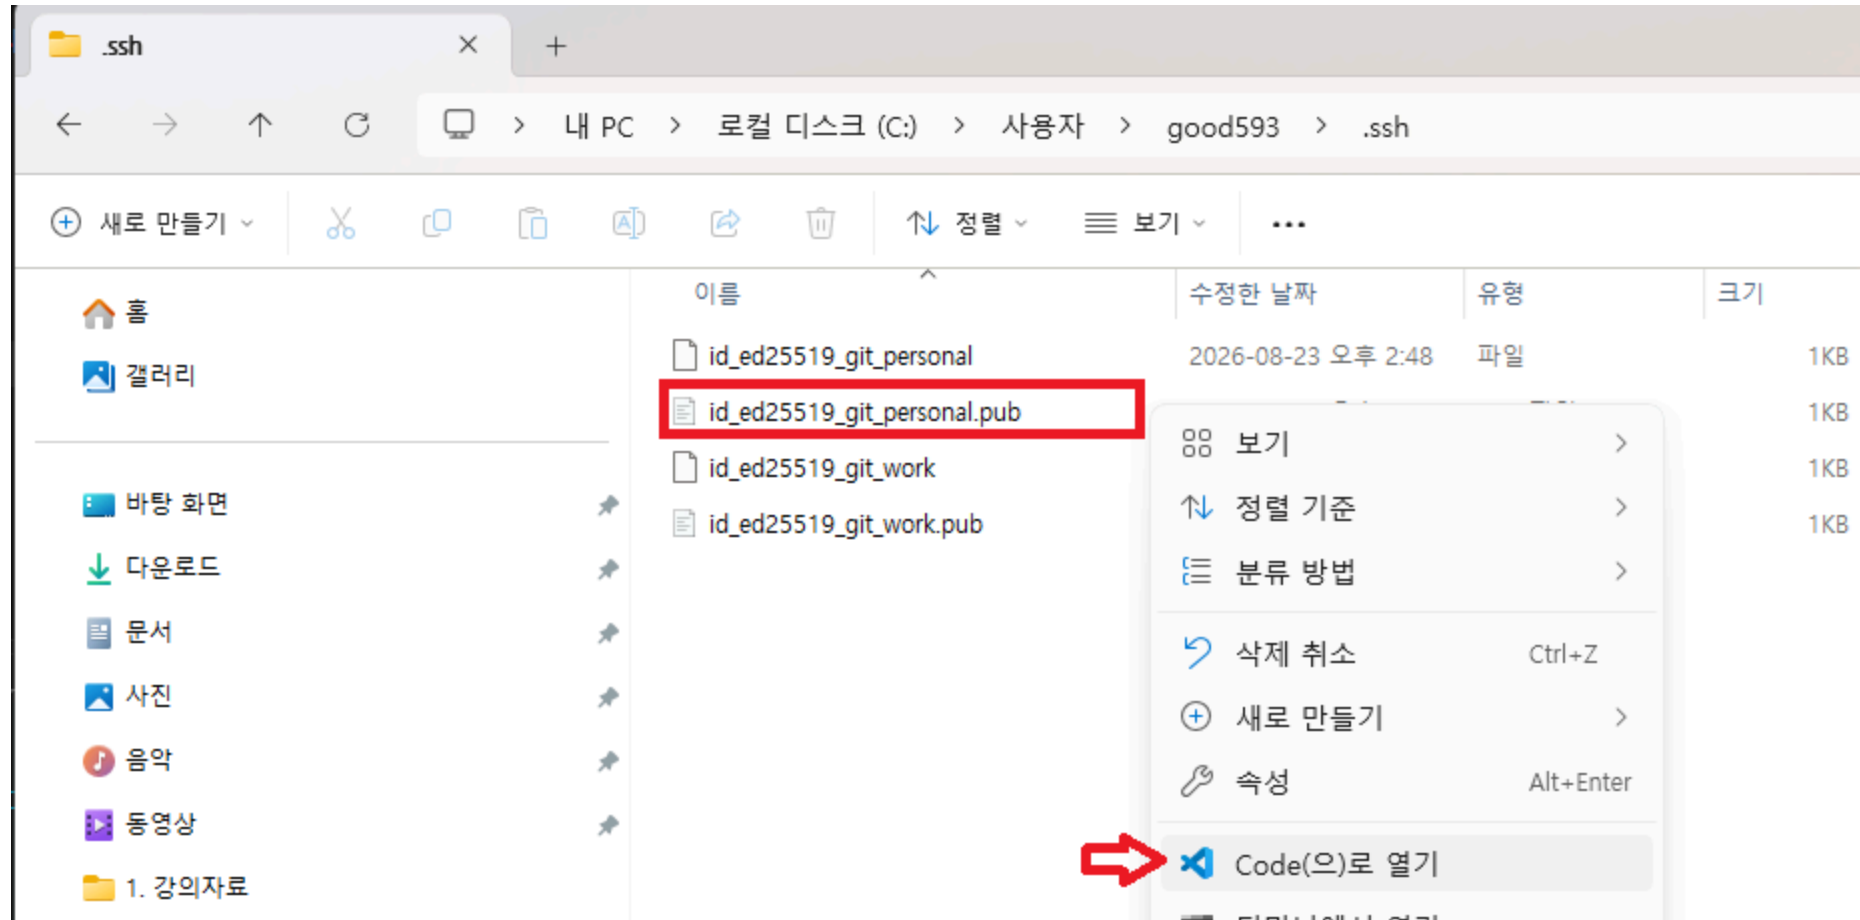

VS Code 터미널이나 PowerShell에서 실행하세요.

```
ssh-keygen -t ed25519 -C "GitHub에 등록된 이메일" -f "$HOME\.ssh\id_ed25519_[적절하게 이름수정]"
```

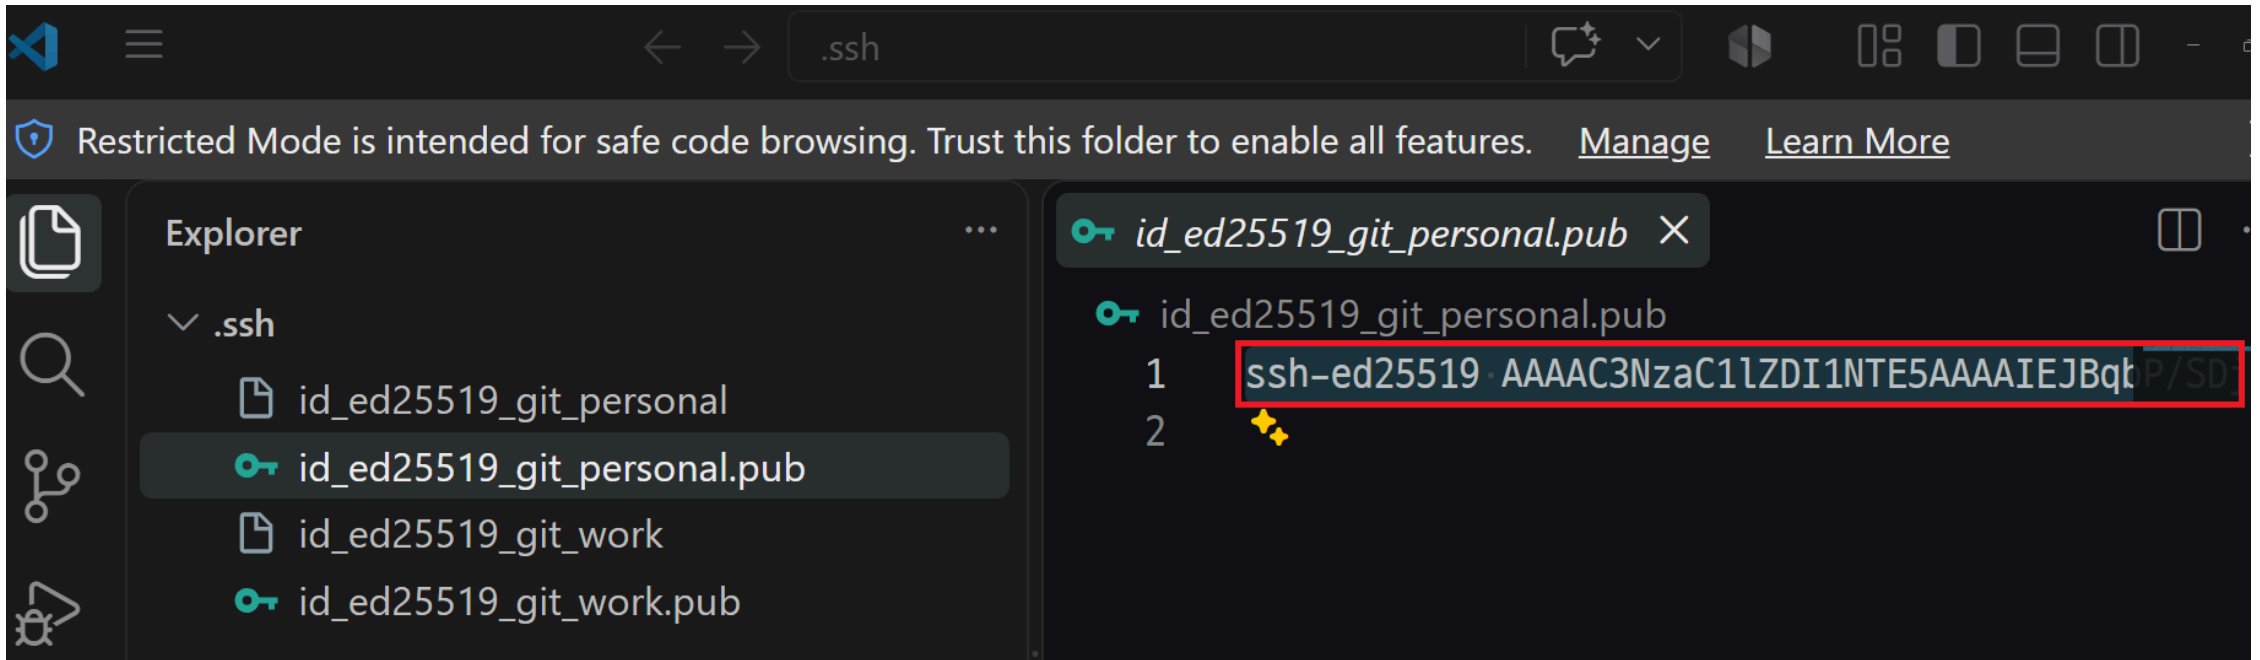

```
Problems Output Debug Console Terminal Ports Postman Console
● PS C:\Users\good593> ssh-keygen -t ed25519 -C "goodwon593@gmail.com" -f "$HOME\.ssh\id_ed25519_git_personal"

단계2: .pub 파일을 GitHub에 등록

ssh hub 복사

Github > Settings

The screenshot shows the GitHub profile page for user 'good593' (gyoungwon cho). The page includes a profile picture, a bio, and a contribution graph showing 1,418 contributions in the last year. The 'Pinned' section displays two repositories: 'pyspark' (Python, 2 stars) and 'aws-sagemaker' (Jupyter Notebook, 2 stars). The right sidebar contains a menu with the following items: Profile, Repositories, Stars, Gists, Organizations, Enterprises, Sponsors, Settings (highlighted with a red box and a red arrow), Copilot settings, and Feature preview. The 'Settings' item is located between 'Sponsors' and 'Copilot settings'.

SSH > ssh hub 키 등록

The screenshot shows the GitHub Settings page for the user 'gyoungwon cho (good593)'. The left sidebar contains various settings categories, with 'SSH and GPG keys' highlighted by a red rectangular box. The main content area is divided into three sections: 'SSH keys', 'GPG keys', and 'Vigilant mode'. In the 'SSH keys' section, a red arrow points to a green 'New SSH key' button. The text in the 'SSH keys' section states: 'There are no SSH keys associated with your account. Check out our guide to [connecting to GitHub using SSH keys](#) or troubleshoot [common SSH problems](#).' The 'GPG keys' section also states: 'There are no GPG keys associated with your account. Learn how to [generate a GPG key and add it to your account](#).' The 'Vigilant mode' section has a checkbox for 'Flag unsigned commits as unverified' which is currently unchecked, with a note: 'This will include any commit attributed to your account but not signed with your GPG or S/MIME key. Note that this will include your existing unsigned commits. [Learn about vigilant mode](#).'

ssh hub 저장

The screenshot shows the GitHub 'Add new SSH Key' page for user 'gyoungwon cho (good593)'. The left sidebar contains navigation links: Public profile, Account, Appearance, Accessibility, Notifications, Access (with a dropdown arrow), Billing and licensing, Emails, Password and authentication, Sessions, SSH and GPG keys (highlighted with a blue bar), Credentials, Organizations, Enterprises, and Teams. The main content area is titled 'Add new SSH Key' and contains three sections: 'Title' with a text input field containing 'home_window_pd', 'Key type' with a dropdown menu set to 'Authentication Key', and 'Key' with a large text area containing 'ssh-ed25519' followed by a redacted line and '@gmail.com'. A green 'Add SSH key' button is at the bottom right, with a red arrow pointing to it from the left.

The screenshot shows a GitHub repository page for 'project-tutorial' by user 'mrcho593'. The repository is private. The main content area shows the 'main' branch with 1 branch and 0 tags. A commit by 'mrcho593' is visible, titled 'Initial commit', with a commit hash of 'ba1514f' and a timestamp of '1 hour ago'. Below the commit, a file named 'README.md' is listed, also with the title 'Initial commit' and timestamp '1 hour ago'. The 'README' section is expanded, showing the text 'proeject-tutorial' (note the typo). On the right side, the 'About' section states 'No description, website, or topics provided.' and lists statistics: 0 stars, 0 watching, and 0 forks. The 'Releases' section states 'No releases published' and provides a link to 'Create a new release'.

Ctrl + Shift + P → Git: Clone → Clone from GitHub

```
# git@[Host 별칭]:[Profile 별칭]/[저장소명].git
```

```
git@github.com-mrcho593:mrcho593/project-toturial.git
```

Visual Studio Code interface showing a project named "project-tutorial".

Explorer: The file explorer on the left shows the project structure. The folder "project-tutorial" is highlighted with a red box. Inside it, the file "README.md" is listed.

Text Editor: The main editor area displays the content of "README.md". The text shows a heading "# proejct-tutorial" (note the typo) and a line number "1".

Git Graph: The Git Graph panel on the right shows the commit history. It includes a "Sign In" button and a "Show Remote Branches" checkbox. The table below lists the commit details:

Graph	Description	Date	Author	Commit
  main <i>origin</i>  origin/HEAD	Initial commit	23 Aug 2026 ...	mrcho593	ba1514f2

Bottom Bar: The status bar at the bottom shows the current branch "main", the user "mrcho593" (highlighted with a red box), and the AWS profile "AWS: profile:default".
